

Women can be good talkers, but sometimes it can be tricky to talk about our health.

So, we'd like to help you get the conversation started!

We've made a list of some suggested topics to help break the ice and get your guests talking at your Women's Health Week event. On the next page, you will find some blank 'Let's talk' cards that you can edit for your own use.

Simply copy and paste some ideas from our list on to the cards, or create your own topics that might better suit your event. Print and place them on the tables for your guests to discover or email them out prior to an online event. If you like, you could also leave the cards blank and invite your guests to fill them in.

Topics
